Meta to create top-level product group focused on generative AI to be future ready

The chatbot battle is heating up, and Mark Zuckerberg is making it clear that Meta Platforms Inc. is focusing on artificial intelligence-powered tools, too.

“We’re creating a new top-level product group at Meta focused on generative AI to turbocharge our work in this area,” Meta chief executive officer Zuckerberg said Monday in a post on Instagram. “We have a lot of foundational work to do before getting to the really futuristic experiences, but I’m excited about all the new things we’ll build along the way.”

India is a global strategic partner of US, says official

“India is a global strategic partner of ours. We have a wide, broad, deep relationship with India. There will be a lot on the agenda in the bilateral relationship and in the multilateral engagements he takes part in on the margins of the G20,” Ned Price, State Department Spokesperson, told reporters at his daily news conference. India and the United States, Price said, share a number of important interests, and a number of important values.

Will Nifty extend losses for 8th session or will Q3 GDP bring cheer? 8 things to know before market opens

Indian benchmark indices are likely to open on a flat note, hinted SGX Nifty. On the Singapore Exchange, Nifty futures were in the green, up 6 points, at the 17,494 level. In the previous session, Nifty 50 dropped 0.42% to hit a new 3-month low, while Sensex fell 0.30%, extending losses for a seventh straight session. “Bears continued to wreak havoc in the domestic market as the latest data releases from the US heightened the existing worries of aggressive rate hikes. The personal consumption expenditure in the US, which is Fed’s key monitorable of inflation, increased in January, pressuring investors to stay away from equities markets.

Business News Update

Public sector banks deposit mobilization grows 8.8% in Dec quarter

Banks have been raising lending and deposit rates after the Reserve Bank of India hiked the repo rates 250 basis points (bps) since May 2022. Public sector banks increased their credit portfolio by 15.7 per cent during the calendar year 2022 compared to 4.7 per cent in the (2021); corresponding growth for private sector banks, however, remained higher at 19.1 per cent as against 13.1 per cent a year ago. The growth in deposit mobilization witnessed by public sector banks was better than private sector and foreign lenders in the quarter ended December 2022, the Reserve Bank data showed.
