1 – Below 29%

65 responses

The overall quality of teaching-learning process in your institute is very good.

5 – Strongly agree

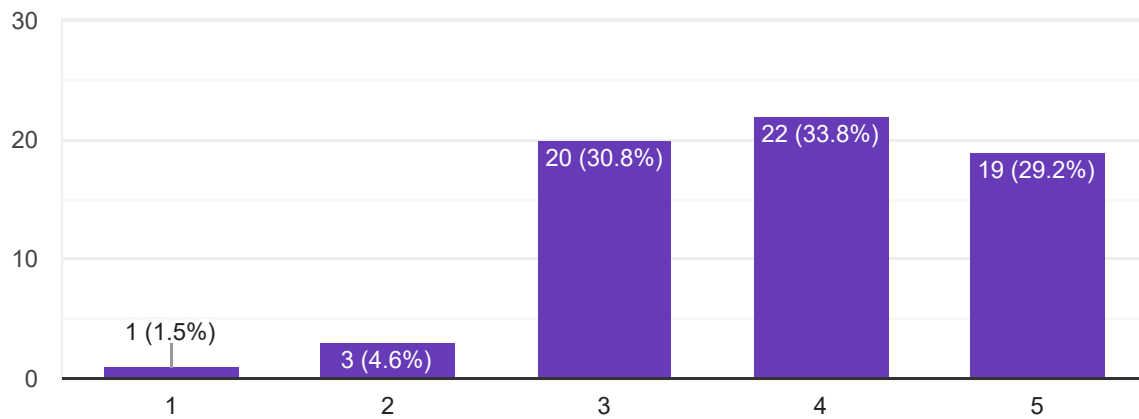

4 – Agree

3 – Neutral

2 – Disagree

1 – Strongly disagree

65 responses

Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

22 responses

No

- 1) College should focus on students and their feedback about placements
- 2) Placements should be improved
- 3) Interview should be scheduled on time and feedback from companies should be posted to students regularly
- 4) College should understand students interest , which industry they are interested , their area of interest.
- 5) Overall placements should be improved
- 6) promising 7 to 8 LPA salary while taking admission but not giving even 6 LPA, so college should keep their promise, at least try to get good companies, schedule the interviews.
- 7) There should be one to one session for students with CMC and Director sir's presence. So there should be clarity what exactly happening in the placements.

It is considered to be overall Good

NA

Take monthly/weekly students review on teaching
Ask if they are comfortable with their mentors
Make sure that no student will get any threats on mark deduction by any faculty or mentor

To reduce the 3 hrs lec to 2 hrs in a day 3 lec.
Come up with more practical example
Partical subject should have more lecture

Most learning is theoretical, with limited real-world application, only few faculty are teaching that
Some faculty members are teaching topics that do not align with the prescribed syllabus, leading to confusion and lack of clarity among students

Mock interview sessions; Corporate/Business related Certification courses; Saturdays should be given off.

Unbiasness with students.
Better faculty.
Better companies for internship and placements.

No suggestions. Thank you.

It should be more practical rather than theory

No biasness to be done

More effective learning

Not to do partiality, that is favouring your favourite students!!! The CR's are over favoured in everything.

Faculty are biased

Overall experience is best

Please treat every student equally

Take a practice of Case study after every lecture

1) Firstly changed or involve the experience/placement committee.

2) Conduct lectures by external professionals as per current industry standards.

More real life application of concepts in the industry specifically in finance domain

CMC committee is not upto the mark

1.Connect with the technology.

2. Practical exposure

3.
