Student Satisfaction Survey on Teaching Learning Process

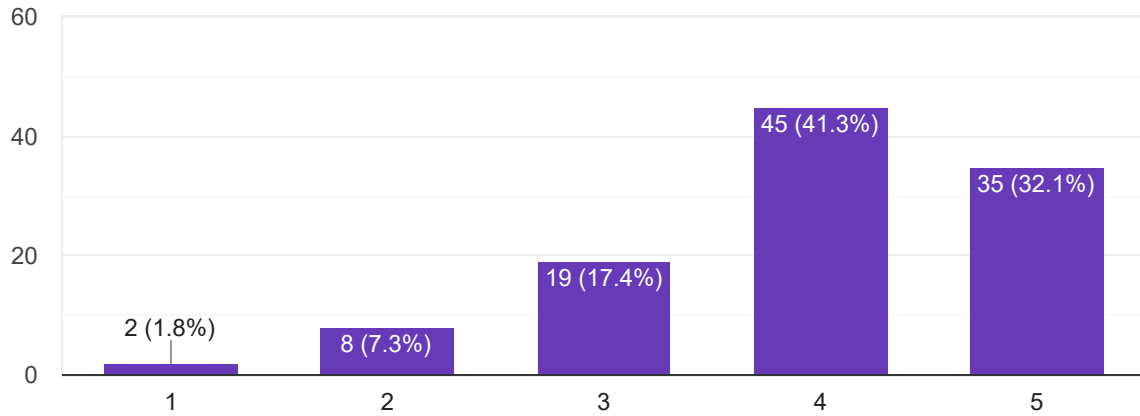

How much of the syllabus was covered in the class?

- 5 – 85 to 100%
- 4 – 70 to 84%
- 3 – 55 to 69%
- 2– 30 to 54%
- 1 –Below 30%

109 responses

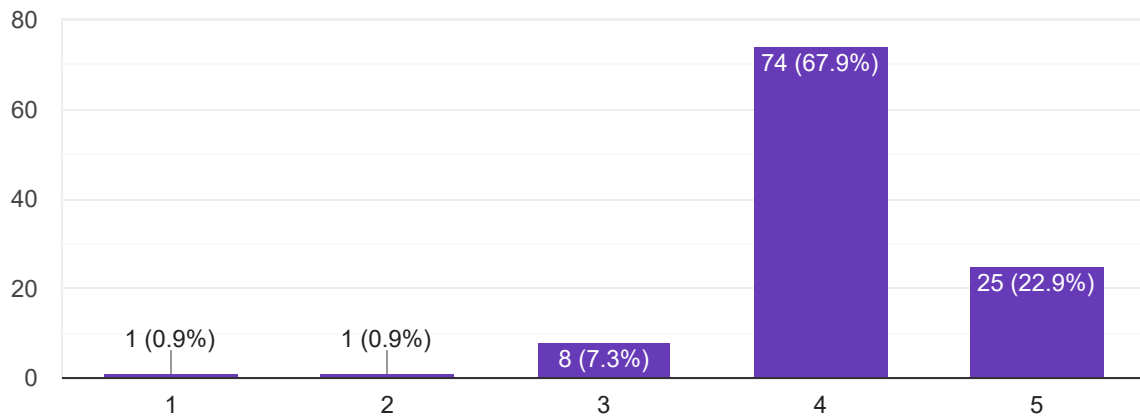

How well did the teachers prepare for the classes?

- 5 –Thoroughly
- 4 – Satisfactorily
- 3 – Poorly
- 2 – Indifferently
- 1– Won't teach at all

109 responses

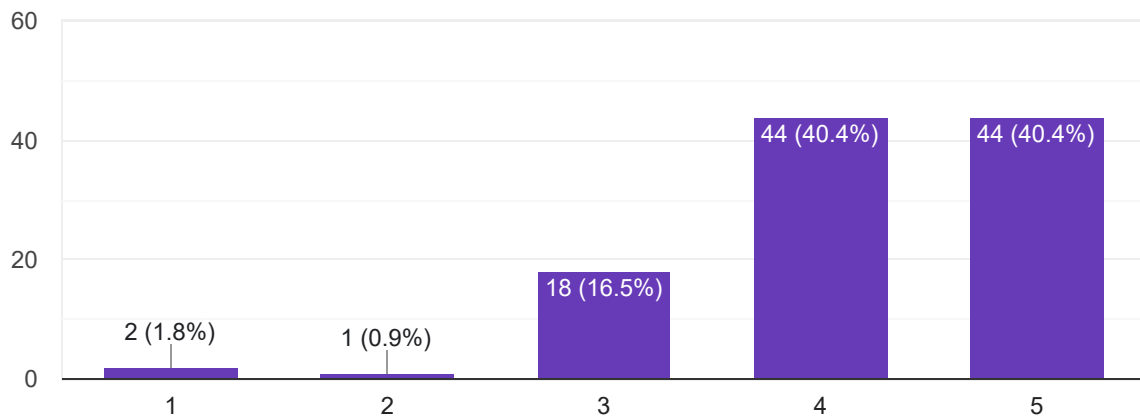

How well were the teachers able to communicate?

- 5 – Always effective
- 4 – Sometimes effective
- 3 – Just satisfactorily
- 2– Generally ineffective
- 1– Very poor communication

109 responses

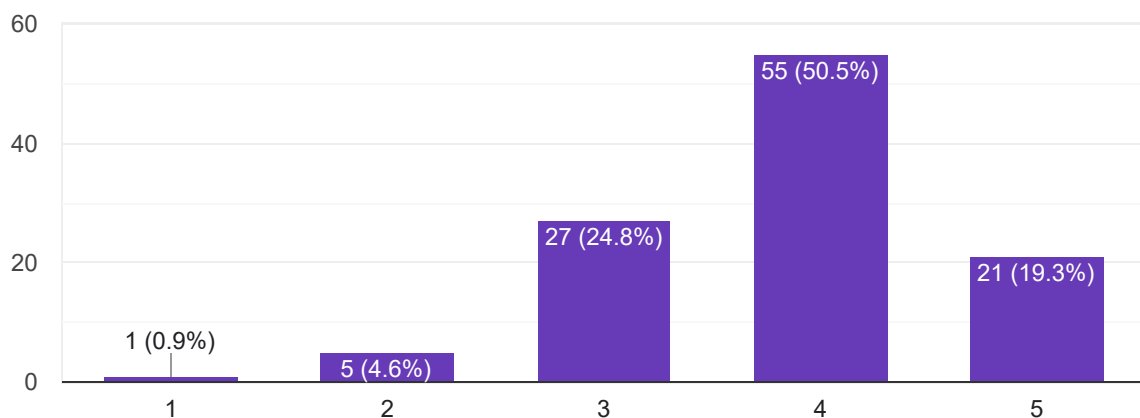

The teacher's approach to teaching can best be described as

- 5– Excellent
- 4 – Very good
- 3 – Good
- 2 – Fair
- 1– Poor

109 responses

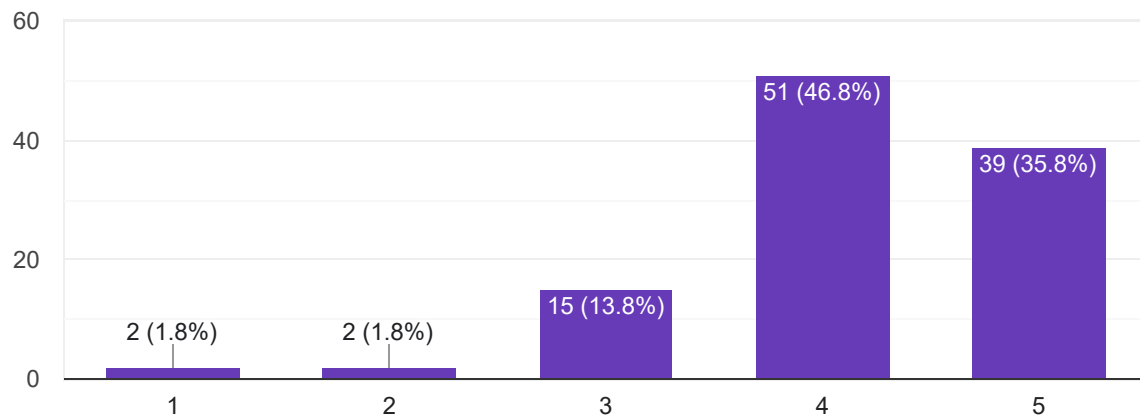

Fairness of the internal evaluation process by the teachers.

- 5 – Always fair
- 4 – Usually fair
- 3 – Sometimes unfair
- 2 – Usually unfair
- 1 – Unfair

109 responses

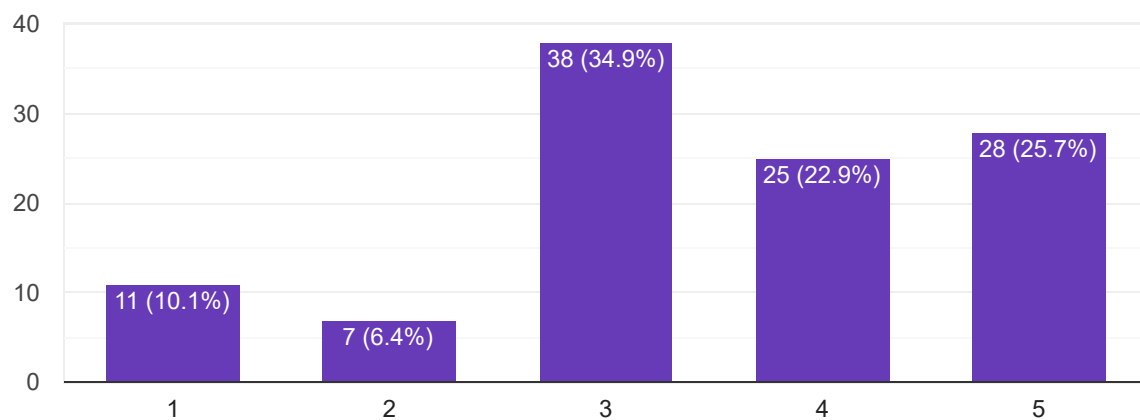

Was your performance in assignments discussed with you?

- 5 – Every time
- 4 – Usually
- 3 – Occasionally/Sometimes
- 2 – Rarely
- 1 – Never

109 responses

The institute takes active interest in promoting internship, student exchange, field visit opportunities for students.

5 – Regularly

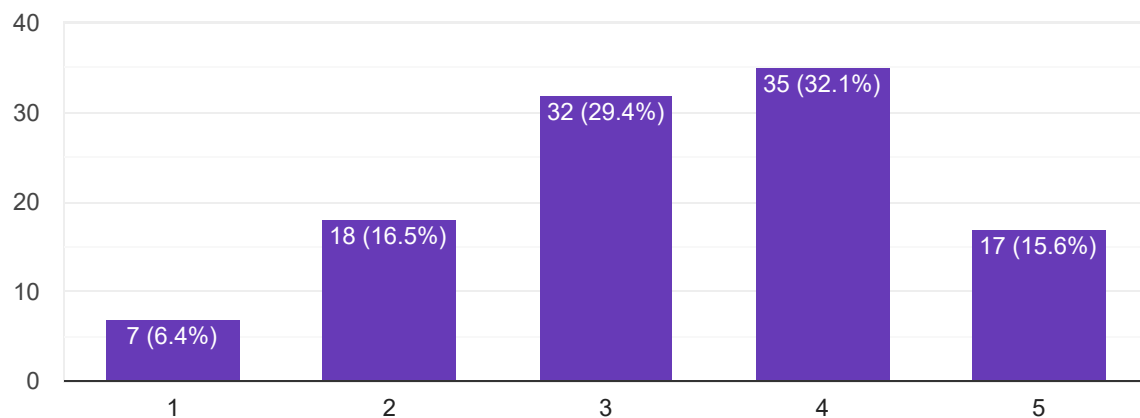

4 – Often

3 – Sometimes

2 – Rarely

1 – Never

109 responses

The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth.

5 – Significantly

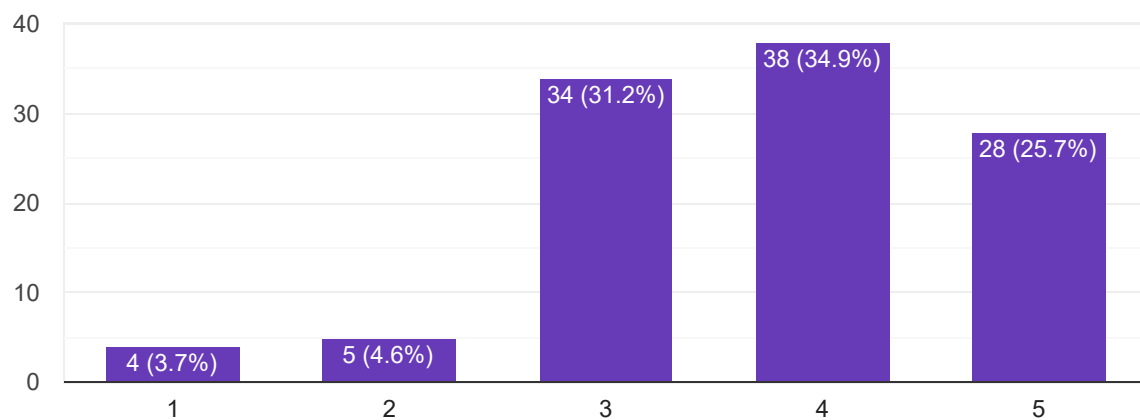

4 – Very well

3 – Moderately

2 – Marginally

1 – Not at all

109 responses

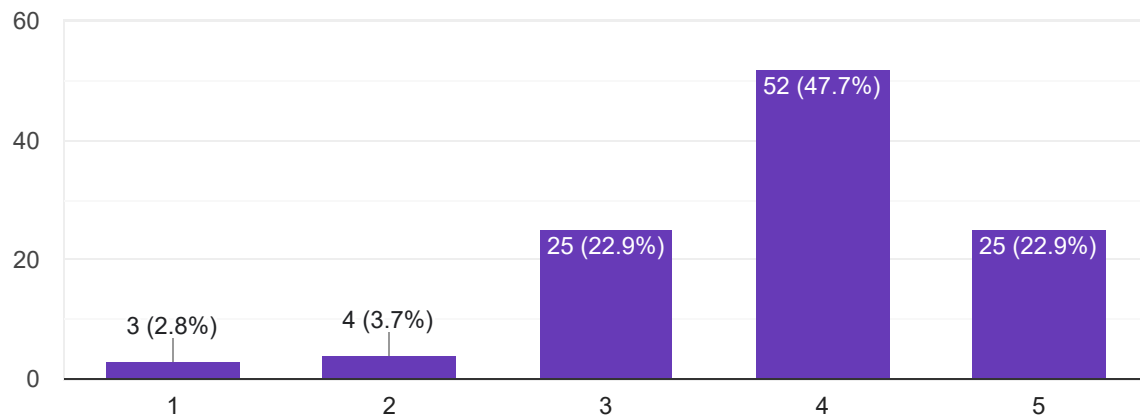

The institution provides multiple opportunities to learn and grow.

- 5 – Strongly agree
- 4 – Agree
- 3 – Neutral
- 2 – Disagree
- 1 – Strongly disagree

109 responses

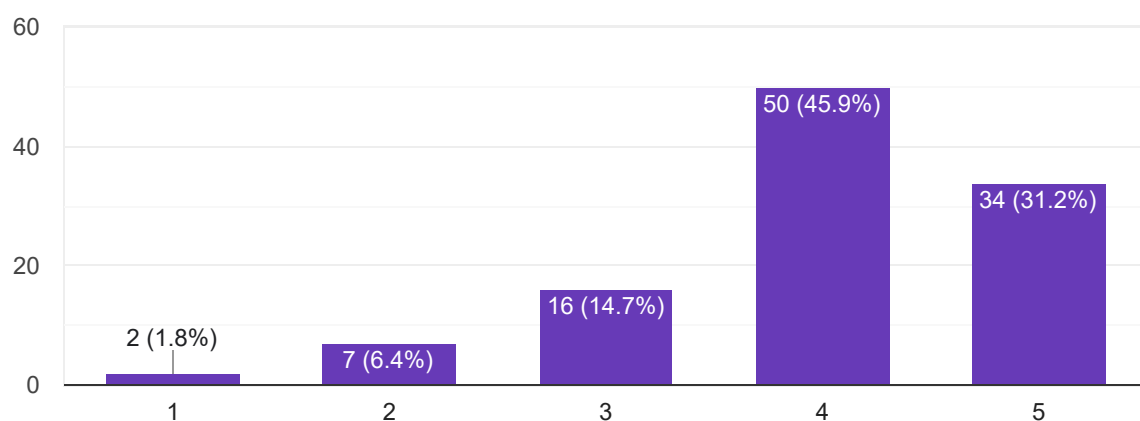

Teachers inform you about your expected competencies, course outcomes and programme outcomes.

- 5 – Every time
- 4 – Usually
- 3 – Occasionally/Sometimes
- 2 – Rarely
- 1 – Never

109 responses

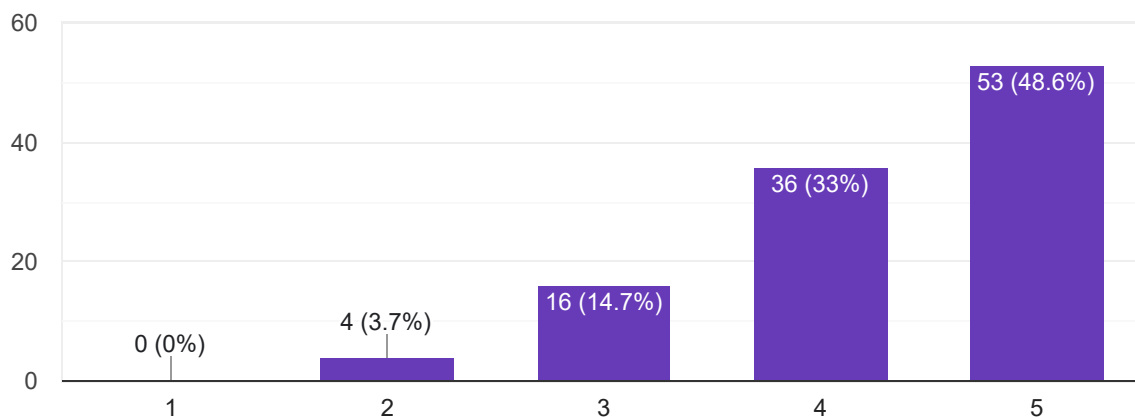

Your mentor does a necessary follow-up with an assigned task to you.

- 5 – Every time
- 4 – Usually
- 3 – Occasionally/Sometimes
- 2 – Rarely
- 1 – I don't have a mentor

109 responses

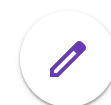

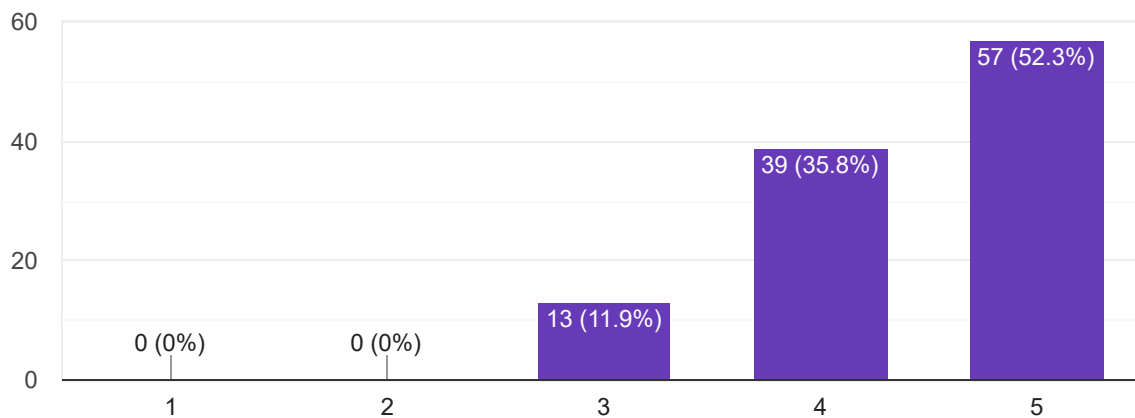

The teachers illustrate the concepts through examples and applications.

- 5 – Every time
- 4 – Usually
- 3 – Occasionally/Sometimes
- 2 – Rarely
- 1 – Never

109 responses

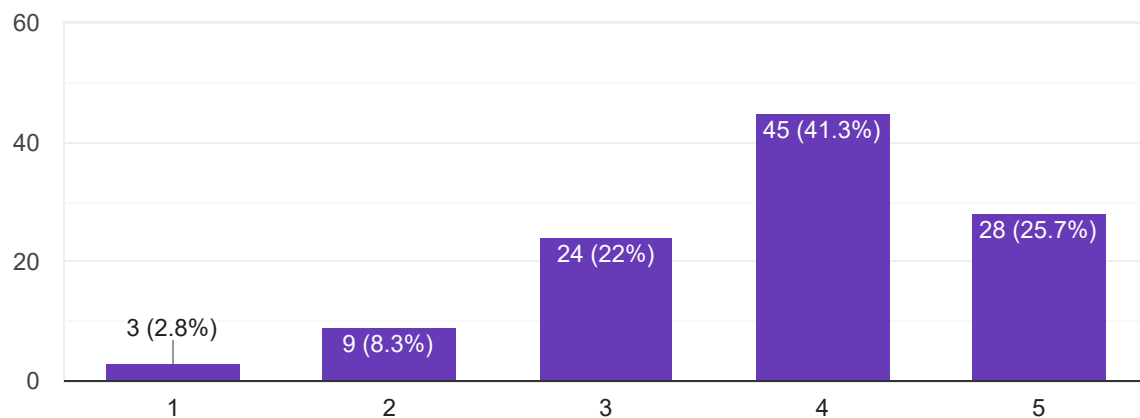

The teachers identify your strengths and encourage you with providing right level of challenges.

- 5 – Fully
- 4 – Reasonably
- 3 – Partially
- 2 – Slightly
- 1 – Unable to

109 responses

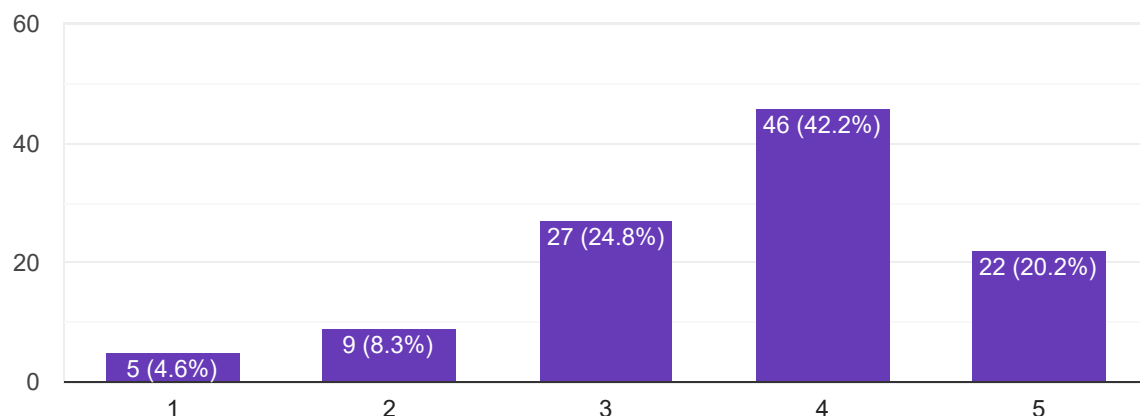

Teachers are able to identify your weaknesses and help you to overcome them.

- 5 – Every time
- 4 – Usually
- 3 – Occasionally/Sometimes
- 2 – Rarely
- 1 – Never

109 responses

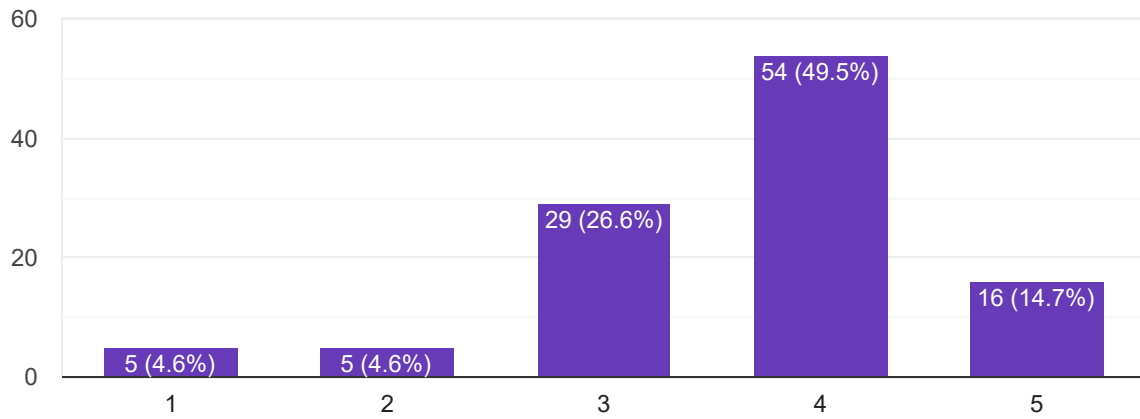

The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process.

- 5- Strongly agree
- 4- Agree
- 3 - Neutral
- 2 - Disagree
- 1- Strongly disagree

109 responses

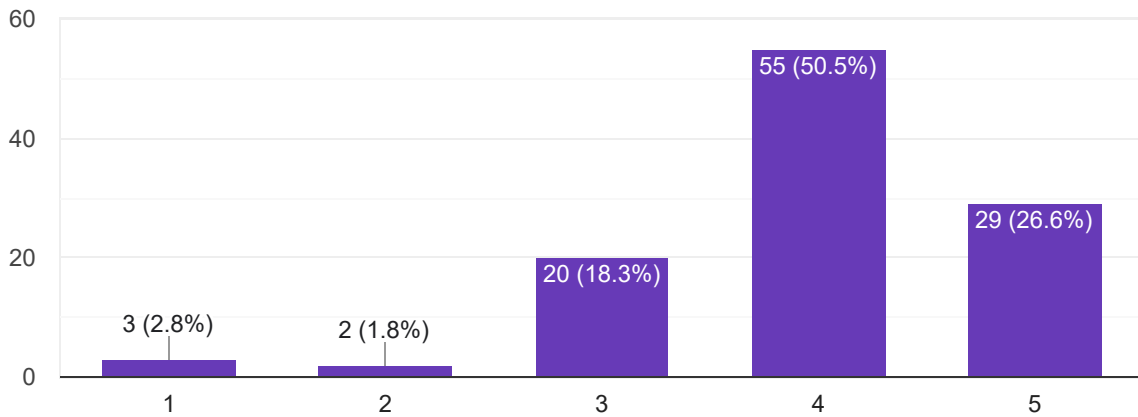

The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences.

- 5 – To a great extent
- 4 – Moderate
- 3 – Some what
- 2 – Very little
- 1 – Not at all

109 responses

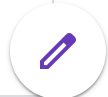

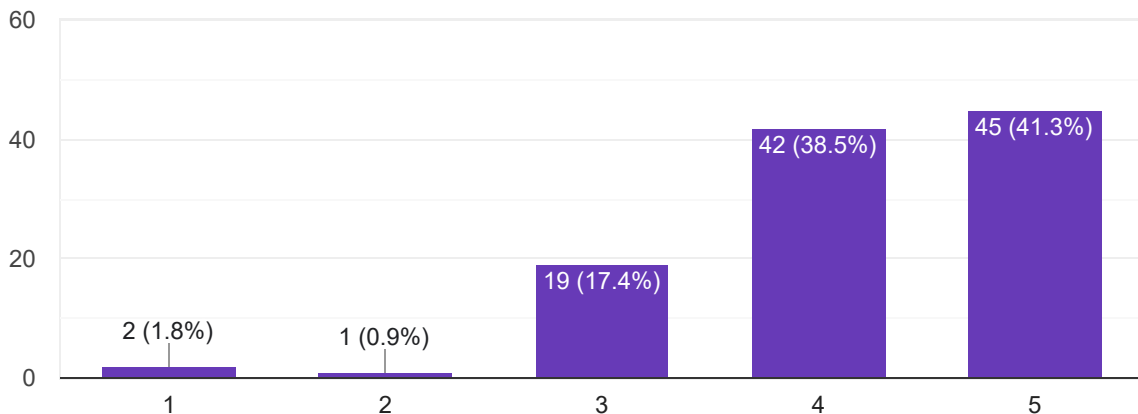

Teachers encourage you to participate in extracurricular activities.

- 5 – Strongly agree
- 4 – Agree
- 3 – Neutral
- 2 – Disagree
- 1 – Strongly disagree

109 responses

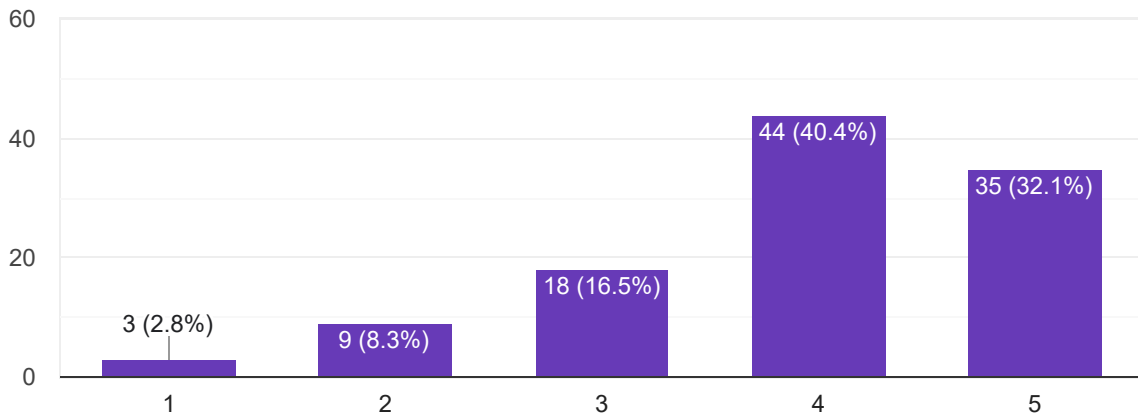

Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work.

- 5 – To a great extent
- 4 – Moderate
- 3 – Some what
- 2 – Very little
- 1 – Not at all

109 responses

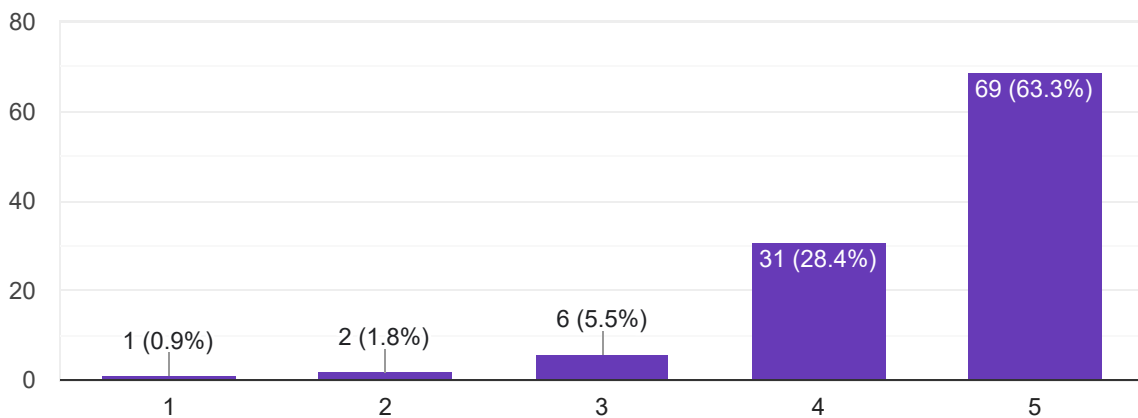

What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching.

- 5 – Above 90%
- 4 – 70 – 89%
- 3 – 50 – 69%
- 2 – 30 – 49%
- 1 – Below 29%

109 responses

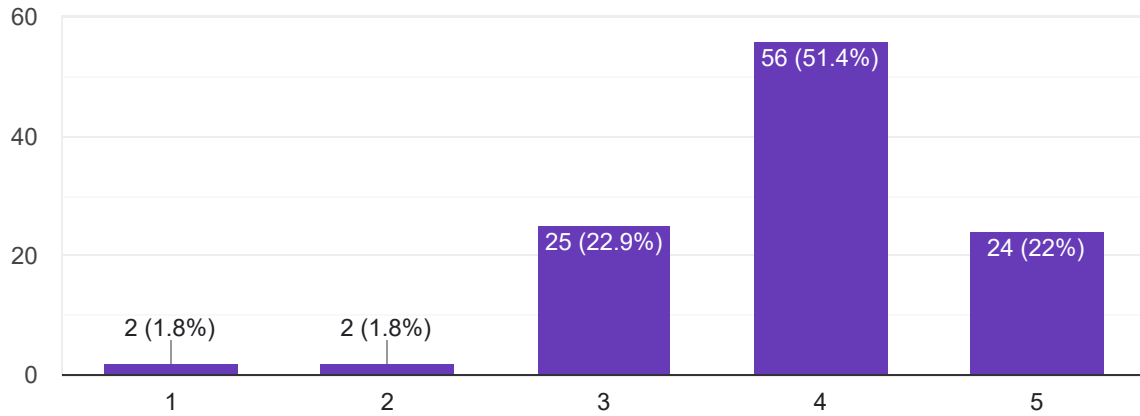

The overall quality of teaching-learning process in your institute is very good.

- 5 – Strongly agree
- 4 – Agree
- 3 – Neutral
- 2 – Disagree
- 1 – Strongly disagree

109 responses

Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

43 responses

Fair valuation, transference in evaluation, feedback for the overall participation

- 1) Focus more on practical learning instead of just going theoretical
- 2) I had a Life Changing Experience at AIMS

1. Teaching is only beneficial when theres a good professor , good certifications that will Truly shape the careers of students in their core. Little bit disappointed during our course.
 2. There should be equal amount of treatment should be given to very Specializations in term of teaching and experiencing a new things.
- I truly suggest to keep the choice of subject in first year itself.
3. Live demos new small small opportunities is much much needed We missed that completely.

No

Motivate students

Add more industrial visits

Inculcate practical knowledge

- 1) provide practical approach i.e based on modern corporate
- 2) introduce personality development programs for those who are not able to speak english fluently.
- 3) and for operations students who are eager to learn SAP for those provide such trainings.

I personally like the way it is going on but would also be inclined towards giving students their own choice to participate, as in giving some sort of freedom of choice.

Would also appreciate if the institute could look at the students point of saturation for learning.

Overall loved the progress that I have made myself. An honor to be part of AIMS.

1-Increase in both way learning

2-Practical activities

3-advanced technology

Suggestions:

Students should be allowed to achieve atleast 2 job offer letters which is currently limited to 1. This will allow students to get the job which they deserve & not less than that.

2. More efforts should be made to further improve the communication skills of students.

Improve overall institution

Learning experience is excellent

1. More live examples
2. Industrial visits for practical knowledge
3. Please do keep some sessions on personality development which will be beneficial in the corporate life

Fun loving learning is more needed

1. Need field visits.
2. Live projects would be beneficial so that we can relate more with actual industry knowledge.

1. Transparency in evolution
2. Fair valuation
3. Practical exposure

1. Integrate modern technologies into the teaching process, such as interactive multimedia presentations, online collaborative platforms, and virtual simulations. This can make learning more engaging and accessible, catering to diverse learning styles.

2. Foster Active Student Participation: fosters critical thinking, communication skills, and a deeper understanding of the subject matter.

3. Establish a systematic feedback system for both students and teachers to provide constructive insights.

No placement opportunities for IT students

1. Transparency in evaluation
2. Practical exposure
3. Certificate courses

More Practical, Participative, knowledge

Faculty with corporate exposure, inculcating teaching methods that doesn't revolve around reading presentations, making sure that students do activities wherein they apply the concepts learnt.

More event regarding to the curriculum so that the students can use what they are learning (eg entrepreneurship event was one of the good event)

Better summer internships programs

Usage of campus area

1. More use of case study based learning in all subjects.
2. Field visits such as retail outlets, marketing based visits showing real world applications of the concepts,
3. Teaching students Advanced Microsoft Excel from First Year itself as it is the primary method of data collection, presentation in corporate world so that the students are corporate ready since their first day of work.

Placements and companies should be related to streams

no

Considering the fact that MMS syllabus is defined under Mumbai university the education was effective although it would be appreciated if focused on ongoing practical knowlege. For example being from FINANCE background i feel whole 2 years were just basic knowlege and agreed to the fact that it kick starts the career but some deep dive into the subject would make greater impact.

All Good

Give more examples, inculcating more activities, do more field visits

The approaches of teaching were different by different teachers, some of teachers are really did their best and helped us to grow.

Need more practical knowledge based lectures

The department of Information technology/systems can achieve something great if institute give them opportunity to do so in their individual field
For eg - providing certifications belong to technology

some teachers are kind good and highly knowledgeable, some are exactly opposite of it , unnecessarily strict and put you under high stress.it will be better to have practical teaching sessions rather than just theories .

.

Keep it up

No suggestions

1. Arrange basic courses like excel, digital marketing in the 1st semester itself.
2. Don't make compulsion and threatenings about presence in the class instead make the sessions so strong and interesting that students themselves should come regularly without

bunk.

3. A strong management system should be followed for every activity in the college. Notices of placements are given few hours before the deadline which is not at all a good communication.

4. In the 21st century, in the world of AI, the college prohibits the use of smartphone and that too only in front of security guards and library is not at all adding value to students. Instead college can provide wifi and restrict tower signal from telecoms. The college wifi should also be arranged such way that students should only access educational sites.

There are only few faculties who teaches practical applications remaining other focus on writing notes.

Teachers waste a lot of time on lectures talking about students capabilities but do nothing to improve it or tell us on how to improve them.

Most of the teachers just read out ppts.

No time is given for self study

Transferency in evaluation

Can have practical exposure

Somewhat feels not satisfied there is lot of improvement need to be done. EVERY specialization needs to be treat samee whether it's certifications courses or Learning opportunities . Also the teaching faculty I am little bit disappointed with!

1. More practical knowledge should be included

2. Industrial visits in order to understand the actual working of the companies

Interview preparation for the final year students have been not done thoroughly so it's a request to the institute to please keep the mock interviews so that the students get prepared to face the real interviews.

Provide more training or change Faculties

Even some faculties are not ready to listen students & they are more interested in insulting students

Can teach more impact fully by explaining cur rent affairs as an example
